

Messaging Points

- [Synthetic Grass Warehouse \(SGW\)](#) is the largest synthetic grass distributor in North America.
- SGW provides a natural grass alternative that saves water, time and money.
- All synthetic grass products are engineered to look and feel like real grass.
- SGW is the exclusive distributor of Everlast Turf and American-made Tiger Turf, the most technologically advanced and highest quality synthetic grass on the market today.
- SGW's synthetic grass is low maintenance, requires no watering and reduces air pollution.
 - Five percent of air pollution in the United States is contributed to lawn and gardening equipment.
- SGW's synthetic grass requires absolutely NO watering.
 - More than 50 percent of our water bill is dedicated to watering natural grass.
 - For every square foot of SGW synthetic grass installed, you can save up to 55 gallons of water, according to the Southern Nevada Water Authority.
- Customers can see a return on investment (ROI) after one year of installation.
- All products are safe and non-toxic.
 - According to the Environmental Protection Agency, over 65 million pounds of toxic fertilizers and lawn pesticides are released into the local water supply each year.
- SGW's grass is equipped with U.V. inhibitors that prevent your grass from fading.
- SGW's products are durable and engineered to handle heavy foot traffic, high heat, and frigid temperatures.
 - SGW's grass has a tuft bind which makes it extremely durable and able to handle all types of harsh weather conditions.
- SGW's grass is safe for pets.
